Project Description :

GreenMart is a full-stack web application that allows users to **order groceries online** and have them delivered by assigned delivery staff. The project is built using the **MERN Stack** (MongoDB, Express.js, React.js, Node.js) with **role-based login** for Admin, Users.

How it works:

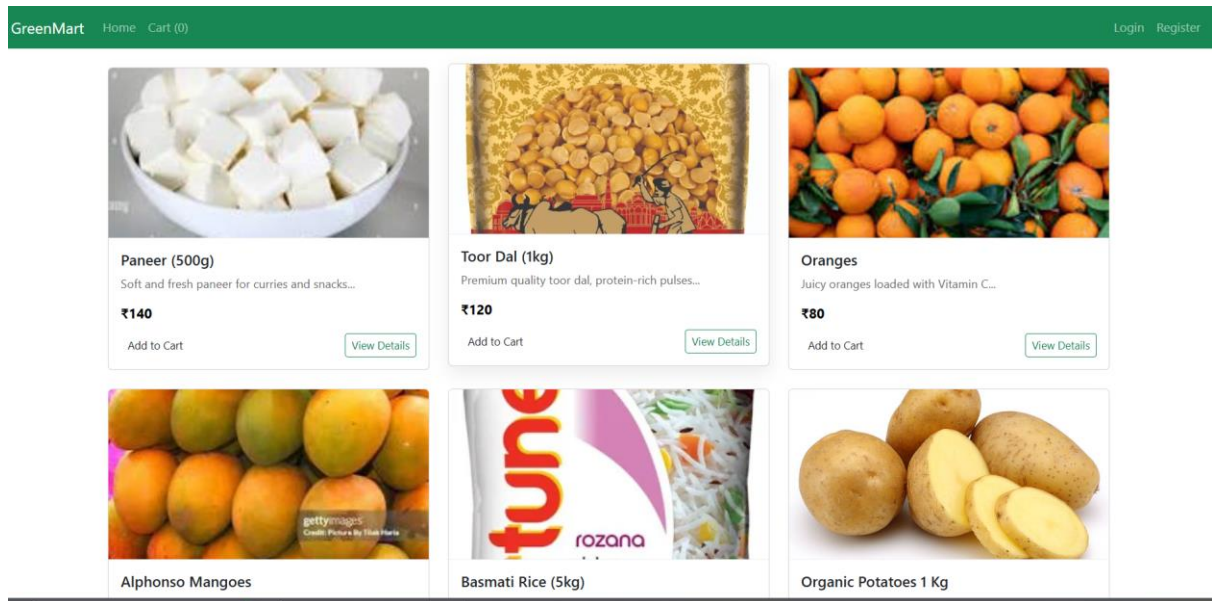

- **Users** can:
 - Register/Login
 - Browse products
 - Add to cart
 - Place orders
 - Track their order status
- **Admin** can:
 - Manage products (add/edit/delete)
 - View all orders
 - Assign orders to delivery staff
 - Track monthly reports (orders, revenue, stock)

Key Features:

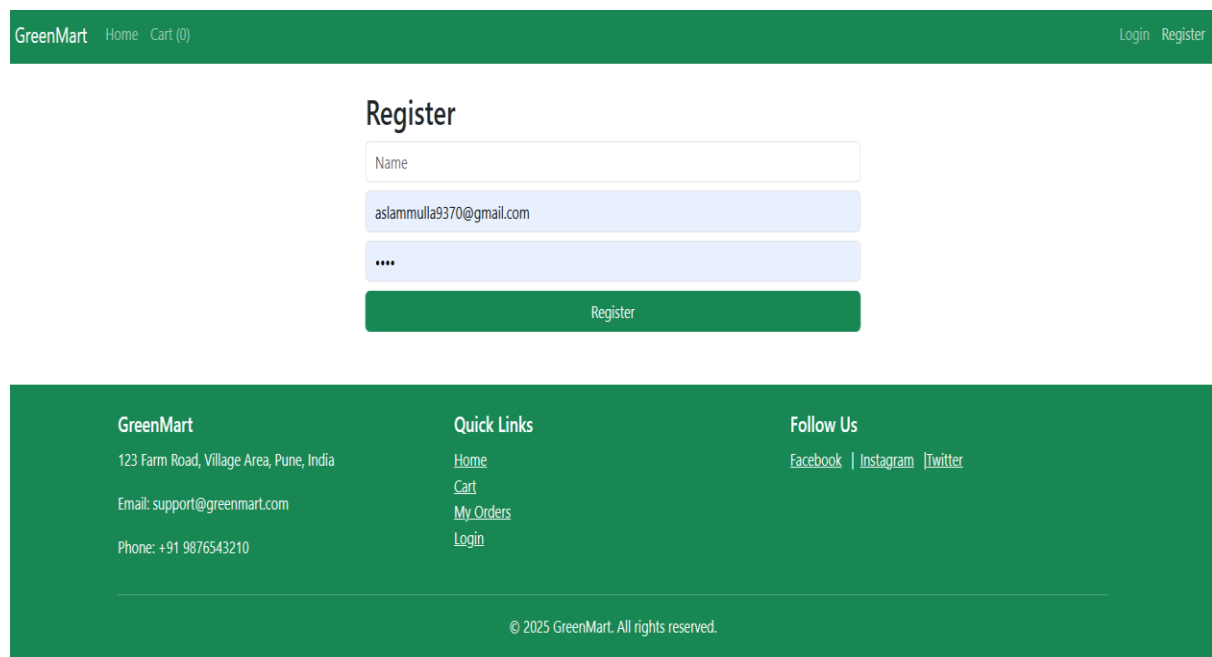

- Role-based authentication (User, Admin,)
- Stock management (auto-reduce after order)
- Email confirmation for orders
- Responsive Bootstrap UI
- Monthly sales and product insights
